

CASTER CONCEPTS

Beyond Standard.

LET THE MOTOR DO THE WORK!

INTRODUCING THE
Drive Caster™
The Industry's First
Motorized Solution

Move up to 5,000lbs Effortlessly!

www.CasterConcepts.com

Version 1.2

Increase productivity and eliminate risk with the Drive Cart. This motorized cart eliminates pushing / pulling and can move up to 10,000lbs.

Self Contained

- Single unit integrates caster and motor
- Can retrofit existing equipment easily
- Encoder available for automation
- Suspension for uneven surface

Customizable

- Add a 2nd Drive Caster™ to increase capacity or speed
- Tank steering for easier maneuvering
- Control units are available for simplified integration

Applications

- Carts
- Dollies
- Walls
- Platforms
- Turntables
